

Frank Lowe Rubber and Gasket Co., Inc. is *reLOWEcating!*

We are happy to announce that we are reLOWEcating to our brand new, 60,000 square-foot facility. “This project has been in the works for over two years. The new location offers Frank Lowe Rubber & Gasket Co., Inc. room to expand our operations, increase our efficiencies and further enhance our commitment to our customers”, said Ira Warren, President.

Established in 1955, the company has been steadily expanding during the past three decades. We moved from a 1,400 square-foot storefront in Forest Hills, NY to a 2,500 square-foot facility in Whitestone, NY and later to a 6,900 square-foot building also in Whitestone. In 1994 the company relocated to 15,000 square feet in Farmingdale; increased to 25,000 square feet and in 2004 grew to 35,000 square feet.

By offering innovative solutions and guidance, and providing Integrity, prompt delivery and personalized concern for our customers we have set a standard for excellence in the rubber & gasket industry. For further information please call Randy Cohen 1-800-777-0202
